2.   They will assess the manner in which Zero Base
Budgeting was applied to the Intelligence Community.
Particular attention will be paid to surveying how well
the system served the needs of the Director of Central
Intelligence under the new Executive Order. A thorough
study of the Decision Unit structure will be undertaken
and recommendations on possible realignment, which will
better serve the purposes of the DCI, will be made.
Further, a review of potential input-output measures will
be undertaken to develop a calculable relationship be-
tween substantive consumer requirements and the optium
allocation of resources by function and target.

3.   [   ] clearances are essential to allow   25X1
personnel to review the processes employed in the recent
programming and budgeting cycle. Without these clearances,
personnel could not have access to, nor understand, the
substance of the processes and, therefore, would be unable
to perform a contract which is aimed at the improvement
of the process.
